

Folding Work Desk / Charting Station

FWD-22 Thinline shown.

- Practical, convenient work surface that folds up out of the way when not in use
- Two styles available, thinline desk and desk with storage space.
- Available in stainless steel or powder coated white steel.

This work surface is there when you need it, folds up and out of the way when you don't. Ideal for busy O.R.s, exam rooms, patient room corridors or nurses stations. Use it for charting, paperwork, laptop data entry or instrument placement. The work surface is 22" wide, 15" deep. When folded, the thinline desk version protrudes from the wall 1 3/8". The storage desk version has room for storing various pens, papers and binders and protrudes from the wall 3 1/2". Choose from stainless steel or white powder coated finish.

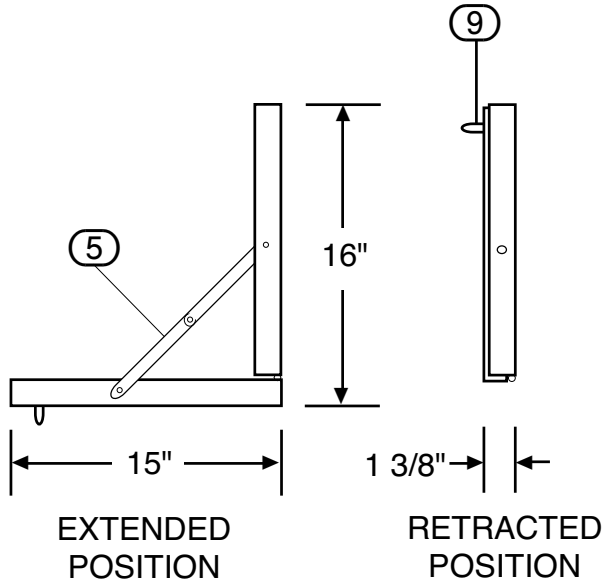

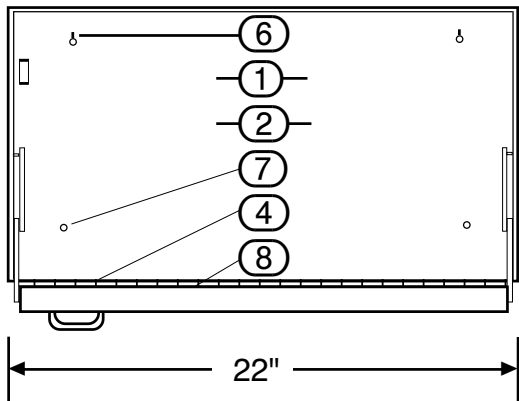

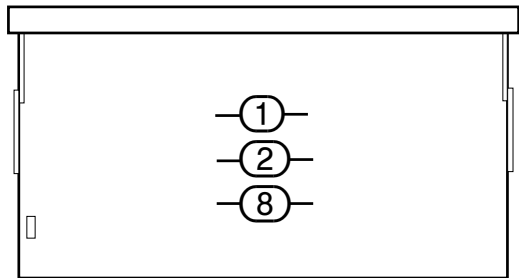

Model	Description
